Hacker Alert: Israel, VIASat Englewood, CO., Oslo Norway, Buffalo, Kansas City 2015-01-19

Cyber Terrorism against Stew Webb on Monday January 19, 2015

http://www.stewwebb.com

Press TV interviews Stew Webb on Cyber Terrorism, email hacking, fake meta bots and redirecting stewwebb.com and the recent Edward Snowden revelations.

Fresh revelation has come to the surface about spying on journalists by Britain's spy agency the G-C-H-Q. The organization is accused of tapping electronic communications of the world's top media organizations.

The Guardian's analysis of documents leaked by whistleblower Edward Snowden shows the G-C-H-Q scooped up tens of thousands of emails of journalists in the United States, Britain and elsewhere. The BBC, Reuters, the Guardian, the New York Times and the Washington Post are among those targeted by the spy agency. According to the report, the journalists' communications were among 70-thousand emails the G-C-H-Q gathered in less than 10 minutes on one day in 2008. The disclosure comes as the British government faces intense pressure to protect the confidential communications of reporters, MPs and lawyers from snooping.

How to block a network

You've chosen to block the network that 185.26.180.107 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 212.199.177.239 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 69.12.94.157 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 172.243.29.142 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the

'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 185.26.180.107 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 37.44.159.71 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 192.240.214.254 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 173.209.212.196 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.

How to block a network

You've chosen to block the network that 107.170.53.50 is part of. We've marked the networks we found that this IP address belongs to in red below. Make sure you read all the WHOIS information so that you see all networks this IP belongs to. We recommend blocking the network with the lowest number of addresses. You may find this is listed at the end as part of the 'rWHOIS' query which contacts the local WHOIS server that is run by the network administrator.
